SteriTrays

"A Brand of Yarsons Group"

Haleem A. Malik (CEO)

It's now many years since we set out on the way of profound transformation, to make every section of over company organized, and to help adopt the modern procedures. With all, our sustainability procedures rely on continuous R & D, innovation, process improvement, and technology, Keeping all the quality Standards & giving exceptional supply chain, and providing valuable products against customers' needs.

We have undertaken the measure towards 2021 & 2022 according to upcoming challenges across our value and mission to provide "quality that Give confidence!" and to limit the impact on the environment by building positive example up-front. We are always working on new ideas to provide over dream them the best environment to work and thrive in quality production.

We encourage work very closely in coordination with our customers and have equipped our unit with state-of-the-art production methodology, machines & quality standards. tapping all the latest research outcomes in materials, training, labor & managing waste. Strictly enforcing Global Business Laws, Financial Practices and Continuous improvement in process to encourage global customers to find all the related supply chain on time at its best.

**“ WE ARE COMMITTED TO PROVIDE
SAFETY & TRUST WITH OUR PRODUCTS
AND SERVICES. ”**

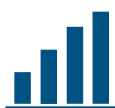

Our Success

Promising Quality
with innovation

Culture of Growth
& experince

Collaborative fitness
& sustainability

Value & care for all
Employees & customers

SteriTrays

“SteriTrays” Specifications

- Innovative design with latest technologies available in the global market.
- OEM trade -mark designs.
- From CAD to final product followed by chain .
- 56 years of experience in the healthcare industry.
- Working with clients to offer a concierge solution.
- Meet and follow all international products standards.
- Long term industry relationship with client.
- Engineering an phototyping for an ergonomic design & products.
- We have an excellent R&D team to fit the client's different requirements.
- Reputation of producing and developing Challenging Designs.

- Offering a wide range for every sterilization need, focused on :

- 1- Cost Effectiveness
- 2- Patient Care
- 3- Productivity
- 4- Continuously Acting on Research & Development

- Factory has a lot of automatic Process including:

- 1- Laser Cutting
- 2- CNC's Machine
- 3- nibble punching
- 4- Molding
- 5- Wire cutting
- 6- Polishing

TABLE OF CONTENTS

General Sterilization Trays	6-21
Universal Trays	22-30
Leyla Retractor	31-33
Endoscopic Baskets	34-37
PRF System	38-43
Cassette Trays	44-64
Implantology/ Bur holder	66-69
Steel Mirrors	70-74
Hollow ware	75-77
Trays Accessories	78-83

General Sterilization Trays

Key Features

- 304 stainless steel with raw material composition.
- Electro polished, Stain & dull finish available.
- Din standard sizes(full, half, Quarter) for fit any standard washing and autoclave machines.
- Custom Size / Special size are our unique selling proposition.
- Street ways manufacturers a special product which is 60% of its hole supply chain.
- Our range includes numerous size made up wire mesh, perforated sheets, laser cutting nibbled sheet and die punches.
- Flexibility to combine multiple material in a single tray evaluated for 1000+ sterilization cycles without any aesthetic and functional loss.

- All product products have smooth surface with no sharp edges to reduce potential risk to CSSD personal damages to glove & warps.
- Easy stack ability
- Custom silicone strips, mats and cradles are available for arranging & holding instruments.
- Industry standard & bespoke colours with required designs.
- Easy handling and configuration.
-

Wire Mesh Trays

Key Features

- Manufacture in 304 non magnet Spotted/woven wire mesh available in 1.2mm.
- 1.0 mm & .75mm diameter.
- Baskets allow maximum flow of sterilization chemicals, steam flow & heat.
- Burr free to protect, wraps and eliminates user injuries.
- Meets all requirements of automating washing & sterilization for all kind of instruments.
- Available in drop & holding handles.
- Baskets are stackable & Electrolytically polished.
- Improve the life cycle of instruments, thus cost effective.
- Structural & dimensional optimization for excellent washing.
- Smooth round corner.

- Silicone Stands / cradle permits excellent cleaning and drying with minimum surface.
- contact and maximum instruments exposure to sterilization.
- Unique designs of silicon strips provide a protected hold in the container to avoid unwanted movements of instruments.
- Single frame, Double frame and Detention frame.
- Lids available with locks (optional).
- High resistance to corrosion & mechanical damage.
- All trays and baskets are made totally with acid resistant steel.

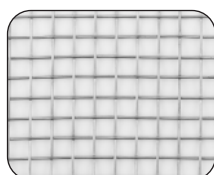

Material: 304(ASTM)
Steel sheet : 1.0mm

Micro Mesh Trays
Super fine Mesh Trays
Ultra fine Mesh Trays

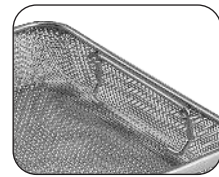

Key Features

- Available Woven mesh aperture size are,
2x2x0.7mm (Micro mesh)
1x1x0.4mm (Super fine mesh)
0.7x0.7x0.25mm (Ultra fine mesh)
 - Round Corners
 - Designed to hold many different instruments with smaller parts that are difficult to keep track during washing, sterilization, transport & storage .
 - Provide maximum surface area to washing equipment for maximum exposure to the process.
 - Basket / trays are with fixed / detachable lids and locks (optional).
 - Stainless steel construction with stand steam ,machine washing, autoclaves, heat and chemical Sterilization process,
- 
- Also available with special protection strip capping.
 - Equipped with unique identification RFID tags for content identification.
 - Steam has unlimited contact to all surfaces.

Universal Trays

Key Features

- 304 grade Stainless Steel.
- Burr free corners and protected with silicon t keep sensitive instruments safe.
- Suitable for Surgical Sets, Orthopaedic & Ophthalmic Sets. Electro polished , Stain & Dull finish available.
- Din standard sizes(full, half, Quarter) for fit any standard washing and autoclave machine .
- Custom Size / Special Size are our unique selling proposition.

- Flexibility to combine multiple materials in a single tray evaluated for 1000+ sterilization cycles without any aesthetic and functional loss.
- All product products have smooth surface with no sharps edge to reduce potential risk to CSSD personal damages to glove and warps.
- Easy to stackability .
- Custom Silicon strips, mats and cradles are available for arranging & holding instruments.

Endoscopic Baskets

Key Features

- Ensure the functionality & long life of delicate endoscopic instruments with Silicon system for washing & sterilization and to eliminate metal to metal contact.
- Maximum Perforation is made with the objective of reprocessing contaminated flexible endoscope.
- Perforated side walls allow desired permeation of ethylene oxide, assuring through its open during sterilization.
- Special light Patterns and punching.
- 304 grade Stainless Steel provides aesthetic finish corrosion protraction.
- Includes a 4years satisfaction guarantee

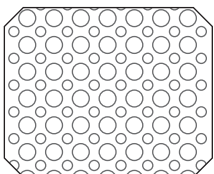

SteriTrays

- Medical grade silicon stabilizes the instruments when the cassette is closed.
- Silicon Holder offers 180 degrees and 50 cycles of protection.
- Burr free Edges.
- Easy locking system, Button lock/Clip lock.
- Electrolytically polished and can be recycled.

PRF & GRF System

Key Features

- Our Standardized & Efficient PRF box Kit is designed to collect and transform PRF clots into membranes to conserve them in a clean wet environment before use.
- The box also contains compression wells and maces to compress the PRF clots in to dense PRF cylinders, easy to use for filling cavities.
- The serum exudate collected in the bottom of the box, can be use for a longer conservation of the membranes, and is ready to be mixed withe the bone bio material for grafting.

Our PRF & GRF Systems are Platelet Rich Fibrin Dental Implant Membrane Boxes.

- We have different varieties for Professional and Students.

Cassette Trays

Key Features

- ➔ Our Stainless-steel instrument cassettes offer proven reliability and quality performance.
- ➔ Our variety of unique designs offers the years of trouble-free operation.
- ➔ Our compact & Durable features accommodate more instruments for greater efficiency in ultrasonic cleaning, autoclaving and storing.
- ➔ Apertures in lid bottom of trays permit optimum flow of cleaning solution and greater access for rinsing.
- ➔ Instruments are completely protected with medical grade Silicon instruments holders configured to the tops and bottoms of our over trays.
- ➔ Various lengths, widths and heights of trays are available to accommodate different sizes and quantities of instruments.
- ➔ Micro instruments cassettes & burr Holders are easy to organize in ultrasonic units to remove bio-burden.

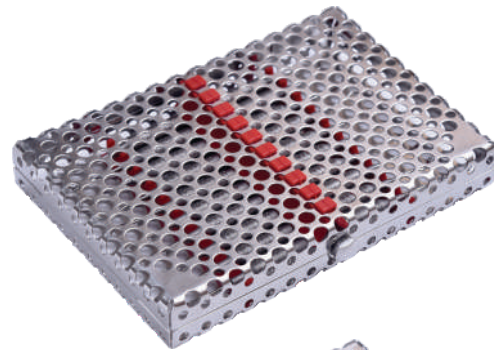

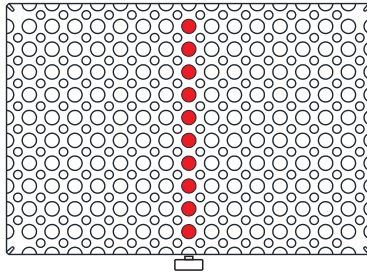

- ➔ Allow instruments to dry thoroughly.
- ➔ Short length hinge provides stable and secure attachment to the cassette.
- ➔ Quick & easy button release provides a secure lock when closed.
- ➔ 304 Grade Stainless steel provides aesthetic finish and corrosion protection.
- ➔ Includes 5 years satisfaction guarantee.
- ➔ Silicon holders offers 180 degree and 50 cycles of protection.
